SUMMARY

A software engineer with 4+ years of experience whose main expertise is full-stack development with Typescript and React. Always eager to improve and learn new technologies.

EXPERIENCE

Full-stack Software Engineer

[Plandek Ltd](#)

📅 Apr 2024 - present 📍 London, United Kingdom (remote)

Stack: React, Typescript, Python, Node, GraphQL, Elasticsearch

- Engineered full-stack features and amCharts 5 visualizations to process and display complex engineering metrics.
- Decoupled metrics infrastructure into a dedicated API
- Designed and delivered custom analytics metrics to expand platform intelligence capabilities.
- Helped launch and architect the UI rewrite while leading the integration of Heap Analytics
- Mentored junior software engineers and provided day-to-day technical guidance.

Frontend Developer

[jobrecord.hu](#)

📅 Apr 2023 - Apr 2024 📍 Budapest, Hungary (remote)

Stack: React, Typescript, Node, GraphQL, MongoDB, Flutter

- Took ownership of a video-based job platform, fixing 100+ critical bugs and resolving 500+ TypeScript errors in 3 weeks to save a high-stakes demo.
- Incrementally rewrote unmaintainable frontend modules from scratch to restore core functionality.
- Introduced KANBAN workflows, standardized ticket templates, and configured automated deployment pipelines.
- Optimized platform SEO and integrated Meta Pixel tracking to improve discovery and analytics.

Full-stack Software Engineer

[BindrUK](#)

📅 Nov 2021 - Mar 2023 📍 London, United Kingdom (remote)

Stack: React, Typescript, Node, GraphQL, MongoDB, Flutter

- Co-developed Bindr, a study platform, building core product features.
- Engineered a daily video-sharing app featuring optimized media processing, dynamic feeds, and social interactions.
- Coordinated with developers across time zones to build an app-wide chat system using Stream Chat.
- Shipped bi-weekly releases in a fast-paced, international SCRUM environment.

SKILLS

Typescript, React, Node, MongoDB, PostgreSQL, Apollo, GraphQL, REST API, Elasticsearch, Python, Claude Code, Cursor, Codex, Docker

LANGUAGES

- Hungarian (native)
- English (fluent)
- Japanese (advanced)

EDUCATION

BSc in Computer Engineering

[University of Szeged](#)

📅 2017 - 2021 📍 Szeged, Hungary

Grade of degree: excellent (4.61/5.00)
